## Day 1 - 4 | Welcome to Botswana

### *Today si a travel day*

#### **Welcome to BOTSWANA**

Today you will arrive in CHOBE

#### **Airport Transfer**

On arrival at Kasane Airport and after clearing customs and collecting your luggage, you will be met by your driver and transferred by road to Chobe Elephant Camp.

#### ***Chobe***

Chobe National Park is located in northern Botswana, in easy driving distance to Kasane and Victoria Falls. Chobe is Botswana's first designated national park and, at over 11,700 km<sup>2</sup> (4,500 mi<sup>2</sup>), is one of the largest. The greater Chobe area consists of the Chobe River, Savute, and Linyanti, which combined is home to Africa's largest elephant population.

There is a rich variety of landscapes in addition to the famed riverfront including vast floodplains, woodlands, grasslands, and clay pans which can be enjoyed by boating safaris and game drives.

## Day 1 - 4 | Chobe Elephant Camp

### *Property Overview*

Perched on the edge of a rocky ridge overlooking the famous Chobe River, presenting a unique design, Chobe Elephant Camp has been built to take advantage of the incredible views overlooking the sweeping floodplains while offering a comfortable refuge from the harsh African conditions.

Built from the same red Kalahari sands that dominate the northern part of Botswana, this eco-friendly lodge is ideally positioned to take advantage of everything this incredible destination has to offer. Be it the spectacular wildlife that the Chobe River is famous for, or the opportunity to interact with the local Sibuya Tribe who live within this wildlife haven, Chobe Elephant Camp offers its guests a true African adventure.

Providing a simultaneously rustic and stylish feel, Chobe Elephant Camp was designed to minimise its carbon footprint, providing a genuinely eco-friendly gateway to the surrounding natural wonders.

The lodge boasts a large open-plan main area featuring a cosy arrangement of couches along with a bar, dining area and reading corner and opens up onto an inviting boma area.

From the main area, a small pathway leads down to the swimming pool with a viewing deck onto a private waterhole.

## ***Experience & Activities***

At Chobe Elephant Camp you will conduct all your activities with local professional guides. These trained professionals will help you to interpret the sounds, smells and sights of the bush and its inhabitants, as well as expose you to the culture of the local people and how they live in this wilderness.

With a variety of activities that include viewing the regions spectacular wildlife from open safari vehicles, by canoeing along the Chobe floodplain or by boat on the Chobe River, along with visits to the nearby village to get introduced to the local culture, Chobe Elephant Camp offers a wide range of experiences to its guests.

## ***Accommodations***

### **Room**

With 12 rooms, Chobe Elephant Camp can comfortably accommodate 24 guests. All rooms are en-suite with both indoor and outdoor showers. Chobe Elephant Camp has been designed to capture the feel of the traditional Farmstead located in the African wilderness. Polished floors, exposed wooden beams and weathered furniture capture the feel of rustic charm. Mix this with some contemporary style and the lodge has a unique feel of old meets new and offers guests something different and unique.

For more information on Covid related cancellations, please contact us directly.

## Beat Malaria

Africa is full of bugs that come in all shapes and sizes, most are benign creatures looking to live out their lifecycles in peace and harmony. Some have stings that can really hurt (and may need medical attention) and others bite, leaving nasty, itchy bites. But when it comes to mosquitoes, they can leave more than just a red, swollen itch machine...

Malaria is a real threat, especially during the rainy season when the anopheles mosquito that carries malaria is breeding. It's the females that bite and spread the disease, which can, in some cases, make you really ill. So please take malaria seriously and take action to prevent infection. Here are some tips to help you...

### Prevention better than cure

The best way to prevent malaria is to take prophylaxis and use an anti-malarial drug.

We can recommend Malanil or Malarone as well as Mozitec. Consult your doctor for more information and check for any contra-indications with medicine you already take as well as possible side effects you need to be aware of.

### Cover up, buttercup and spray, spray, spray

When the sun starts to sink, put on long pants and long sleeves to minimise possible bites and spray the hell out of your legs and arms (even covered) with a good bug spray or smear with a bug stick. Don't forget your ears! And cheeks! And ankles.

Mozzies love ankles.

### **Doom your room**

Use bug spray to knock down insects in your room or tent at night, before you go to dinner. Give it a good all-over spray, shut the doors/flaps and walk away. Here in Sarf Efrica we have a spray called Doom. Others are called Target, Peaceful Sleep and Morein.

For the majority of accommodations, your room is prepared for you by the wonderful house keepers so no need to worry about the above.

### **Use your mozzie net**

That gorgeous, diaphanous netting around your bed is not a romantic come-on, it's designed to keep winged, bitey things at bay. So use it. Along with all of the above.

### **Talk to us**

We'll give you the full lowdown on where you're going and what the risks are in terms of malaria so that you can make an informed choice about how to prevent it.
