Victoria Falls National Park

Victoria Falls National Park is a tiny piece of protected land surrounding Victoria Falls, one of the world's three great waterfalls. Situated in western Zimbabwe in the town of Victoria Falls, the views are incredible and you can follow a path right along the edge of the gorge. The mighty Zambezi creates a roar and a huge spray of mist that can be seen from many miles away. The falls are also known as *Mosi-oa-Tunya*, an incredibly descriptive name that captures the essence of this very special place so well - translating to the "Smoke that Thunders."

As a result of the spray from the falls, a mini rainforest exists in the surrounding area, creating a wildlife hotspot. Species such as lion and leopard occasionally come through while sightings of elephants are more common. Above the falls, hippo and crocodiles abound, amongst a large array of wildlife - an added bonus to a visit to this World Heritage Site and one of the Seven Natural Wonders of the World.

Day 4 - 7 | Victoria Falls to Hwange National Park

Today is a travel day

Airport Transfer

This morning following breakfast and a final morning activity (time permitting), you will be transferred by road to Somalisa Camp.

Hwange National Park

Hwange National Park is situated in western Zimbabwe and is the country's premier game reserve. With easy road and flight access from both Victoria Falls and Bulawayo, the reserve is extremely popular with both local and international tourists. Hwange is renowned for its huge elephant and buffalo herds, sable and other rare antelope as well as an excellent concentration of large predators including lion, leopard, wild dog, hyena, and cheetah. Birders will find plenty to keep them busy with over 400 species of birds recorded and the park is especially known for its spectacular sunsets.

At almost three million acres, Hwange is a huge wilderness area open to Botswana on its western side, allowing wildlife to traverse across countries and making it extremely valuable for the conservation of large mammals like elephant, lion, and buffalo.

Day 4 - 7 | Somalisa Camp

Property Overview

Somalisa provides guests with breathtaking views of the golden savannah plains of Hwange. A place where, one moment you are sipping on your gin and tonic listening to the distant baritone roar of a lion coalition on the hunt and the next, you are gazing over at a congregation of elephants mere meters away, peacefully sharing a sundowner with you.

Hwange National Park is a land of contrasts from dense Teak and Acacia forest to vast open savannah, offering guests an exhibition of raw and diverse Africa. Somalisa Camp enjoys pride of place as our first-ever Hwange safari lodge. It was built by our owner, Beks Ndlovu and is home to the quintessential African Bush Camps experience. Tucked away under the dappled shade of an Acacia grove, along the edge of an ancient seasonal floodplain.

This intimate bush camp is perfect for a relaxing Hwange safari with friends and loved ones. The elegant style is infused by natural wood and organic features of the bush. Kudhinda, the Zimbabwean national material, is thoughtfully paired with modern decor influences creating an authentic contemporary African style. A full solar power farm and water purity system allow the camp to recycle 80% of water used. Somalisa Camp leads the way in eco-friendly safari accommodation. It has been awarded the first GOLD Green Tourism Certification in Zimbabwe.

Experience & Activities

Explore legendary Hwange National Park through a variety of pursuits while staying at Somalisa Camp. Activities include walking safaris, game drives, birding and cultural visits. All are included in your stay and led by our qualified and passionate guides. These natural storytellers enlighten our guests by sharing their wonder and wisdom of the African bush with them.

Accommodations

Luxury Sail Tent

Consisting of seven elegantly furnished Luxury Sail Tents with gauze sliding doors, a glass wood-burner fireplace for the cold winter nights, and in-room fans for the hot summer days, each tent has en suite bathroom facilities including flush toilets, an indoor and outdoor shower, as well as a copper slipper-style bathtub.

Beat Malaria

Africa is full of bugs that come in all shapes and sizes, most are benign creatures looking to live out their lifecycles in peace and harmony. Some have stings that can really hurt (and may need medical attention) and others bite, leaving nasty, itchy bites. But when it comes to mosquitoes, they can leave more than just a red, swollen itch machine...

Malaria is a real threat, especially during the rainy season when the anopheles mosquito that carries malaria is breeding. It's the females that bite and spread the disease, which can, in some cases, make you really ill. So please take malaria seriously and take action to prevent infection. Here are some tips to help you...

Prevention better than cure

The best way to prevent malaria is to take prophylaxis and use an anti-malarial drug.

We can recommend Malanil or Malarone as well as Mozitec. Consult your doctor for more information and check for any contra-indications with medicine you already take as well as possible side effects you need to be aware of.

Cover up, buttercup and spray, spray, spray

When the sun starts to sink, put on long pants and long sleeves to minimise possible bites and spray the hell out of your legs and arms (even covered) with a good bug spray or smear with a bug stick. Don't forget your ears! And cheeks! And ankles.

Mozzies love ankles.

Doom your room

Use bug spray to knock down insects in your room or tent at night, before you go to dinner. Give it a good all-over spray, shut the doors/flaps and walk away. Here in Sarf Efrica we have a spray called Doom. Others are called Target, Peaceful Sleep and Morein.

For the majority of accommodations, your room is prepared for you by the wonderful house keepers so no need to worry about the above.

Use your mozzie net

That gorgeous, diaphanous netting around your bed is not a romantic come-on, it's designed to keep winged, bitey things at bay. So use it. Along with all of the above.

Talk to us

We'll give you the full lowdown on where you're going and what the risks are in terms of malaria so that you can make an informed choice about how to prevent it.
