On arrival at Lilongwe Airport and after clearing customs and collecting your luggage, you will be transferred by road to Senga Bay on the shores of Lake Malawi

Boat Transfer

On arrival at Senga Bay, you will be met and transferred by boat to Mumbo Island.

Lake Malawi

Lake Malawi is famed for the abundance and diversity of its fish life and holds a greater array of freshwater fish species (over 1000) than any other lake on Earth and more than all of Europe and North America combined. The majority of these are colourful fish called cichlids (their local name is mbuna) of which the Lake contains more than 400 types, 30% of all known species. Other fish species such as chambo form the primary protein source of the people that live on the lakeshore and beyond. Much of this astounding underwater diversity is protected within the National Park at Cape Maclear in the southern part of the lake.

Overnight

Accommodation: **Mumbo Island Camp**

Room type: **Tent**

Inclusions: **Fully inclusive**

Day 1 - 5 | Mumbo Island Camp

Property Overview

Mumbo Island is a pristine, deserted tropical island in the world's first freshwater national park: Lake Malawi National Park. Here, just seven comfortable tents (including a double family tent) are perched on rocks high above the water and tucked into the foliage. Each tent has a hot bucket shower and 'eco-loo', its own shaded view-deck and hammock. Mumbo Island Camp adheres to strict principles of eco-architecture, so the dining area, bar and water sport gazebo are all hand built from timber, thatch and canvas and solar energy is used.

Accommodations

Guest Tents

The camp comprises five units (two twin tents and three twin reed chalets) perched on rocks high above the water shaded by lush foliage, each with bucket showers, 'eco-loos' and wooden deck. A hammock provides a comfortable spot to take in the idyllic lake view. A twin-tented family unit is tucked into the forest near the main beach.

Fast Facts

Highlights

Located on the shores of Lake Malawi

The island has never been populated by humans, so it remains in its natural state

Quick facts

Five guest tents

Eco-friendly resort

Great for snorkeling and scuba diving (PADI registered)

Travel protection plans will help assist you against any unforeseen situations. Travel insurance can include coverage for Trip Cancellation, Trip Interruption, Emergency Medical, and Emergency Evacuation/Repatriation, Trip Delay, Baggage Delay, and more.

For more information on Covid related cancellations, please contact us directly.

Beat Malaria

Africa is full of bugs that come in all shapes and sizes, most are benign creatures looking to live out their lifecycles in peace and harmony. Some have stings that can really hurt (and may need medical attention) and others bite, leaving nasty, itchy bites. But when it comes to mosquitoes, they can leave more than just a red, swollen itch machine...

Malaria is a real threat, especially during the rainy season when the anopheles mosquito that carries malaria is breeding. It's the females that bite and spread the disease, which can, in some cases, make you really ill. So please take malaria seriously and take action to prevent infection. Here are some tips to help you...

Prevention better than cure

The best way to prevent malaria is to take prophylaxis and use an anti-malarial drug.

We can recommend Malanil or Malarone as well as Mozitec. Consult your doctor for more information and check for any contra-indications with medicine you already take as well as possible side effects you need to be aware of.

Cover up, buttercup and spray, spray, spray

When the sun starts to sink, put on long pants and long sleeves to minimise possible bites and spray the hell out of your legs and arms (even covered) with a good bug spray or smear with a bug stick. Don't forget your ears! And cheeks! And ankles.

Mozzies love ankles.

Doom your room

Use bug spray to knock down insects in your room or tent at night, before you go to dinner. Give it a good all-over spray, shut the doors/flaps and walk away. Here in Sarf Efrica we have a spray called Doom. Others are called Target, Peaceful Sleep and Morein.

For the majority of accommodations, your room is prepared for you by the wonderful house keepers so no need to worry about the above.

Use your mozzie net

That gorgeous, diaphanous netting around your bed is not a romantic come-on, it's designed to keep winged, bitey things at bay. So use it. Along with all of the above.

Talk to us

We'll give you the full lowdown on where you're going and what the risks are in terms of malaria so that you can make an informed choice about how to prevent it.
